THIS IS "PERSIMMON WEATHER"

Described by Jewell Mayes as Time of Genuine Contentment.

"Persimmon weather" is the time Jewell Mayes, secretary of the State Board of Agriculture, calls this season, and this is what he has to say about it:

"Persimmon weather is the time of genuine Missouri satisfaction, with invigorating air by day and bracing temperature at night—finer weather than California. These are the days of the mighty Missouri quartet, persimmons, pawpaws, possums and pumpkins.

"During persimmon weather we live longer within twenty-four hours than at any period in the dozen months. October in Missouri is the most satisfying and most truly characteristic weather of the commonwealth. It is the harvest time, glorious in color and typical of this state."
